Material	PET-G
Pieces per box	50

PRODUCT INFORMATION

This 160ml Star Fluted Tumbler is made of high quality copolyester, which is virtually unbreakable, easy to recycle and BPA free. The star fluting of the tumbler creates an attractive design, while the slightly wider top of the glass allows for easier grip. The internal stacking lugs make separating of the tumblers much easier. Extremely lightweight and durable tumbler, which is great for everyday use.
