PRODUCT INFORMATION

These Black Combination Tongs are made out of high quality nylon, which is food contact safe as well as virtually unbreakable. The design combines functions of tweezers with a ladle. They are perfect for buffets and food displays. These tongs have an excellent grip due to the ribbed end. They are safe to use in temperature up to +180°C, which allows for them to be utilized in food warmers as long as the recommended temperature is not exceeded. Dishwasher safe.
