PRODUCT INFORMATION

This large Isothermal Plate Cover with Base is available in a neutral, light grey colour. Suitable for plates up to 25.5cm diameter. It is a 2 Part Set that includes both the cover and the base. The set is made out of a mixture of polypropylene and polyurethane. Both materials are very robust, yet light. The isothermal design allows to keep food hot for up to 60 minutes if you use both the lid and base together, which is perfect to aid busy food service times.

The lid allows for the meals to be pre-prepared and stacked, ready for service. Both parts of the set are dishwasher safe.

With this item in the kitchen, you can make sure you will serve a perfectly warm meal to everyone from first to last!
