PRODUCT INFORMATION

This High Heat Bowl Lid is available in grey colour.

The dish lid is very versatile as it allows you to prepare individual portions of meals, stack, refrigerate or freeze them and then use directly in the oven or microwave for cooking or reheating food. The lid is suitable for operating temperatures from -120°C to +140°C degrees.

This lid is made of PPT material, which is very robust and durable. It has a much higher resistance to chipping or shattering than glass or ceramic oven dishes and covers. Also dishwasher safe. The lid is compatible with our 450ml high heat salmon bowl
